SUMMARY

Final-year Computer Science student and web development intern with hands-on experience building responsive, cross-browser web features. Proficient in HTML5, CSS3, and JavaScript; currently building expertise in React and REST API integration. Seeking an entry-level web developer role in Bengaluru.

SKILLS

Core: HTML5, CSS3, JavaScript (ES6+), Python, responsive design, cross-browser debugging,

Learning: React, Node.js, REST API integration

EXPERIENCE

Web Development Intern — Haptrend Media, Karaikudi

- Built responsive web features using HTML5, CSS3, and Figma design handoffs.
- Collaborated with cross-functional teams to deliver project requirements ahead of schedule.
- Optimized page load performance and resolved cross-browser layout inconsistencies.
- Implemented QA and secure coding practices during development cycles.

PROJECTS

Code Vault — Personal Code Snippet Manager *(HTML, CSS, JavaScript)*

- Built a browser-based tool to save, search, and syntax-highlight code snippets with tagging and notes
- Implemented an auto-generated practice quiz feature and persisted all data locally via localStorage
